

Trail A Test Instructions

Sample A: There are numbers in circles on this page. Please take a pencil and draw a line from one number to the next, in order. Start at 1, draw a line to 2, then to 3, and so on. Please **try not to lift the pen** as you move from one number to the next. **Work as quickly and accurately** as you can.

Test A: **You should start recording time for this task. You have 3 minutes to complete Test A.**

As in Sample A, draw with a pencil a line from one number to the next, in order. Start at 1, then draw a line to 2, then to 3, and continue until you go to the end (Number 25). Please **try not to lift the pen** as you move from one number to the next.

Start timing as soon as you start this test. **Stop timing when the Trail is completed**, or when **maximum time** is reached (180 seconds = 3 min).

Please submit a picture of Test A to the website. You can scan the page with Test A or simply take a picture with a smartphone. You should not submit the Sample A, just Test A.
